RE: Small Municipal Separate Storm Sewer System (ms4) General Permit ARR4000
Centerton, Arkansas
EDA # 1679

The City of Centerton has contracted with Engineering Design Associates to help setup and administer their MS4 program. As part of the NOI application this letter will outline the minimum control measures that the city will have in its Stormwater Management Program:

Goal 1 – Public Education and Outreach on Stormwater Impacts:
The city has entered into an agreement with the Northwest Arkansas Regional Planning Commission. The NWARPC has an engagement with the University of Arkansas Cooperative Extension Service to provide services that will satisfy the requirements to meet this minimum control measure. This agreement is currently in effect and the Memo of Understanding is attached to this application.

Goal 2 – Public Involvement/Participation:
The city has entered into an agreement with the Northwest Arkansas Regional Planning Commission. The NWARPC has an engagement with the University of Arkansas Cooperative Extension Service to provide services that will satisfy the requirements to meet this minimum control measure. This agreement is currently in effect and the Memo of Understanding is attached to this application.

Goal 3 – Illicit Discharges Detection and Elimination:
The city will develop and implement a program to meet this minimum control measure.

Goal 4 – Construction Site Stormwater Runoff Control:
The city will develop and implement a program to meet this minimum control measure.

Goal 5 – Post Construction Stormwater Management in New Development and Redevelopment:
The city will develop and implement a program to meet this minimum control measure.

Goal 6 – Pollution Prevention/Good Housekeeping for Municipal Operations:
The city will develop and implement a program to meet this minimum control measure. Also, the employee training portion of this minimum control measure will be handled by the University of Arkansas Cooperative Extension Service thru the agreement with the NWARPC

Respectfully,

Steve A. Hesse, PE
President

MEMORANDUM OF UNDERSTANDING FOR THE MS4 JURISDICTIONS OF NORTHWEST ARKANSAS AND THE NORTHWEST ARKANSAS REGIONAL PLANNING COMMISSION

WHEREAS, eighteen cities in Benton and Washington Counties, the counties themselves, and the University of Arkansas meet the U.S. Environmental Protection Agency's "small" urbanized area municipal separate storm sewer (MS4) criteria, and must comply with national Phase II Stormwater Regulations; and

WHEREAS, the Arkansas Department of Environmental Quality (ADEQ), the state agency authorized by EPA to issue National Pollutant Discharge Elimination System (NPDES) permits requiring and ensuring compliance, will establish dates for affected entities to be covered under Arkansas' general permit for MS4s; and

WHEREAS, said permit requires development, implementation, and evaluation of a stormwater management plan, that addresses each of the six minimum control measures identified in the Phase II Storm Water Regulations contained in 40 CFR 122.26 and outlined in Part I.B.; and

WHEREAS, the Northwest Arkansas Regional Planning Commission (NW ARPC) has coordinated meetings between representatives of affected jurisdictions in an effort to determine, in the interest of economy and efficiency, whether certain stormwater permit components could be addressed collectively, rather than individually; and

WHEREAS, it has been determined that a cost effective, regional approach to certain minimum control measures required as part of the permit - namely Public Education and Outreach, Public Involvement and Participation, and the education component of Pollution Prevention/Good Housekeeping - is both logical and appropriate; and

WHEREAS, the NW ARPC previously requested and received statements of qualifications from interested institutions and firms with demonstrated water quality educational expertise, and has, in cooperation with representatives of affected MS4 jurisdictions, endorsed the attached proposal from the University of Arkansas Cooperative Extension Service; and

WHEREAS, the ADEQ has endorsed the regional concept and proposal for addressing said minimum control measures; and

WHEREAS, said representatives of affected MS4s have also endorsed the distribution of costs associated with the proposal as shown on the attached cost allocation plan; and
WHEREAS, the Board of Directors of the NWARPC have authorized the Commission to act as the financial clearinghouse and primary contractor, on behalf of said MS4s, in connection with said proposal.

NOW, THEREFORE BE IT RESOLVED THAT WE, THE UNDERSIGNED MS4 JURISDICTION, AND THE BOARD OF DIRECTORS OF THE NORTHWEST ARKANSAS REGIONAL PLANNING COMMISSION, AGREE AS FOLLOWS:

SECTION 1. To participate in a 1-Year Regional Stormwater Education and Coordination Program (January 1, 2013 – December 31, 2013), to be carried out by the University of Arkansas Cooperative Extension Service through an engagement with the Northwest Arkansas Regional Planning Commission, with costs based on each jurisdiction’s pro-rated share of region’s 2010 urbanized area population; it being understood that said services to be provided shall satisfy requirements for the federally mandated minimum control measures referenced herein. Commitments for participation in said program in future years will require governing body approval on a year-to-year basis.

SECTION 2. To participate financially in accordance with the attached cost allocation plan. Any increases in the costs allocated to the undersigned MS4 due to the failure of other MS4 jurisdictions to participate shall be subject to the approval of the undersigned MS4.

SECTION 3. That all funds received by NWARPC from MS4s shall be utilized in their entirety for stormwater management program services and coordination activities in connection with EPA Phase II Stormwater Program requirements, and shall be accounted for separately from all other Commission funds.

Dated this ______ day of __________, 2012.

Centerton
