Dear Mr. Doug Szenher,

I am writing to ask you to please do everything in your capacity to protect the Buffalo River from the ramifications of a hog farm. I and others are depending on you to use your authority and capacity to protect this beautiful area.

Please see that in 5 years from now, and for generations to come, we have a pristine river and surrounding areas. There are other ways to have to have/produce hogs--don't trade the Buffalo for hogs/money. No amount of money can buy another Buffalo River and its beautiful surroundings.

Thank you,

Debbie Goolsby
