CHAPTER ONE: GENERAL PROVISIONS

1.1  12.101  Purpose and Title

The purpose of Arkansas Pollution Control and Ecology Commission Regulation Number 12 (Storage Tanks), which is referred to herein as "Regulation" and which may be cited as "Department of Environmental Quality Regulation 12 (Storage Tanks)," is to regulate underground storage tank systems and certain aboveground storage tank systems in order to protect the public health and the lands and waters of the State of Arkansas.

1.2  12.102  Authority

This Regulation is promulgated pursuant to the authority of Arkansas Code Annotated (A.C.A.) §8-7-801 et seq. and the Petroleum Storage Tank Trust Fund Act (A.C.A. §8-7-901 et seq.).

1.3  12.103  Definitions

1.3.1  (A) Except for the definitions of "Owner," "Person," and "Release" found at 40 CFR 280.12, the definitions set forth in 40 CFR 280.12 and 280.92 are all adopted by reference herein.

1.3.2  (B) As used in this Regulation, unless the context otherwise requires:

(a)(1) (a) "Aboveground storage tank" means any one or a combination of containers, vessels, and enclosures located aboveground, including structures and appurtenances connected to them, whose capacity is greater than one thousand three hundred twenty (1,320) gallons and not more than forty thousand (40,000) gallons and that is used to contain or dispense motor fuels, distillate special fuels, or other refined petroleum products. Such term does not include mobile storage tanks used to transport petroleum from one location to another or those used in the production of petroleum or natural gas.

(b) "Aboveground storage tank" shall not include any such containers, vessels, or enclosures used to contain or dispense refined petroleum substances listed under 101(14) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 USCS Section 9601 (14)).
(2) "Advisory Committee" means the Advisory Committee on Petroleum Storage Tanks as established by A.C.A. § 8-7-904.

(3) "Certificate of Eligibility" means a certificate issued by the Department to (1) an owner or operator of an underground storage tank who has chosen to use the trust fund as a mechanism to partially satisfy the financial responsibility requirements of 40 CFR 280, Subpart H, or (2) to an owner or operator of an aboveground storage tank who has chosen to participate in the trust fund; who has

   (a) Registered his or her storage tank(s) with the Department;

   (b) Paid the applicable storage tank fees; and

   (c) Certified in writing to the Department that he or she is in substantial compliance with all applicable state and federal laws and regulations relating to petroleum storage tanks has completed and submitted an annual self-inspection audit form to the Department and that he or she has financial responsibility for the trust fund deductibles.

(4) "Certificate of Registration" means a certificate issued by the Department to an owner or operator who has paid the applicable storage tank fees and registered his or her storage tank(s) with the Department.

(5) "Combination," for purposes of implementation of this Regulation on aboveground storage tanks only, means containers, vessels, and enclosures located aboveground which are joined by common piping and located in tandem.

(6) "Commission," unless indicated otherwise by the context, means the Arkansas Pollution Control & Ecology Commission.

(7) "Corrective action" means those actions which may be necessary to protect human health and the environment as a result of an accidental release, sudden or nonsudden.

(8) "Department" means the Arkansas Department of Environmental Quality.

(9) "Director" means the Director of the Arkansas Department of Environmental Quality.

(10) "Operator," in addition to having the
meaning given in the definition found at 40 CFR 280.12, means, unless the context dictates otherwise, any person in control of, or having responsibility for, the daily operation of an aboveground storage tank system; provided, however, that "operator" as it is used in Chapters Five and Six and Subsection 12.104(A) shall not include such persons.

(11) "Owner" means:

(a) In the case of any underground storage tank system in use on November 8, 1984, or brought into use after that date, any person who owns an underground storage tank system used for the storage, use, or dispensing of regulated substances;

(b) In the case of any underground storage tank system in use before November 8, 1984, but no longer in use on that date, any person who owned such tank system immediately before the discontinuation of its use. The term "Owner" does not include any person who, without participation in the management of an underground storage tank system, holds indicia of ownership primarily to protect a security interest in the tank system; and

(c) Unless the context dictates otherwise, any person who owns an aboveground storage tank; provided, however, that "owner" as it is used in Chapters Five and Six and Subsection 12.104(A) shall not include such persons.

(12) "Person" means any individual; corporation; company; firm; partnership; association; trust; joint-stock company or trust; venture; municipal, state, or federal government or agency; or any other legal entity, however organized.

(13) "Release" means any spilling, leaking, emitting, discharging, escaping, leaching or disposing from a storage tank into the groundwater, surface water or subsurface soils of the state.

(14) "Storage tank" means an aboveground storage tank or underground storage tank as defined by this Regulation.

(15) "Storage tank self-inspection audit" means a checklist or form issued by the department addressing the compliance status of a storage tank that the owner or operator completes on an annual basis.

(16) "Trust fund" means the Petroleum Storage Tank Trust Fund created by the Petroleum Storage Tank Trust Fund
Act, A.C.A. §8-7-901 et seq.

(17) “Unknown petroleum storage tank” means a petroleum storage tank as defined by A.C.A. §8-7-901 et seq. state law whose existence on a property or at a facility at the time of discovery of a release was not known or should not have been reasonably known by the owner or operator. An owner or operator is deemed to have known of the existence of an unknown petroleum storage tank if there was surficial evidence of such tank in the form of visible vent pipes, fill caps, or lines protruding from such tank.

14 12.104 Incorporation of Federal Regulations

(A) The following regulations promulgated on or before May 27, 1999, April 26, 2002, by the United States Environmental Protection Agency are hereby adopted as provisions of this Regulation as though set forth herein line for line and word for word, except that unless the context otherwise dictates, all references therein to "Implementing Agency" shall be considered references to "Arkansas Department of Environmental Quality," and all references to "Administrator," "Regional Administrator," "Director" or "State Director" shall be considered references to the "Director of the Arkansas Department of Environmental Quality," and all references to the "U. S. Environmental Protection Agency" or "EPA" shall be considered references to the "Arkansas Department of Environmental Quality," and all references elsewhere in this Regulation to any of the following regulations shall constitute a reference to the regulation as herein adopted; and provided that the effective date of the provisions adopted herein by reference as provisions of this Regulation shall be the date such provisions are specified as being effective by the Commission in its rulemaking and the effective date of the federal regulations adopted herein shall have no bearing on the effective date of any provisions of this Regulation:

Code of Federal Regulations (CFR), Title 40

(a) (1) 280.10 through 280.74

(b) (2) 280.90 through 280.112 280.115

(B) The Commission shall conduct rulemaking as necessary to incorporate into this Regulation any new or revised federal regulations.
1.5 12.105 Records

1.5.1 (A) In addition to any other records required to be maintained by A.C.A. §8-7-901 et seq. under the Regulated Substance Storage Tanks program, the Petroleum Storage Tank Trust Fund Act, or this Regulation, all owners or operators shall maintain, and submit or, upon request make available for review and copying by the Department at all reasonable times, any records which may reasonably be required by the Department, the Commission, or the Advisory Committee in the performance of their duties under law.

1.5.2 (B) Any owner or operator of an underground storage tank shall grant the Department access to all records concerning the storage of regulated substances.

1.6 12.106 Entry and Inspection of Underground Storage Tank Facilities

Any owner or operator of an underground storage tank system shall, upon request of a duly authorized representative of the Department, permit the representative to enter the property at all reasonable times to inspect the facilities and equipment or to conduct monitoring and sampling activities.

1.7 12.107 Entry and Inspection of Aboveground Storage Tank Facilities

1.7.1 The Department shall have the authority to enter upon the property of any owner or operator of an aboveground storage tank to obtain information, conduct surveys, or review records for the purpose of determining substantial compliance, as defined by the requirements of A.C.A. §8-7-901 et seq. the Petroleum Storage Tank Trust Fund Act, with all state and federal laws and regulations relating to aboveground storage tanks prior to approval of a claim for reimbursement from the Petroleum Storage Tank Trust Fund.

1.7.2 Since, in accordance with Sections 3.3 and 4.3, the owner or operator of an aboveground storage tank must be in substantial compliance, as defined by A.C.A. §8-7-901 et seq., at the time of the release in order for the release to be covered by the trust fund, the Department may, at any time, exercise the authority described in Subsection 1.7.1 to determine whether an aboveground storage tank owner or operator choosing to participate in the fund is in substantial compliance.
CHAPTER TWO: REGISTRATION OF STORAGE TANKS

2.1.1 12.201 Registration Requirement

2.1.1 (A) As provided by A.C.A. 58-7-813(a) state and federal law, all owners and operators of storage tanks must register their tanks in accordance with this Regulation.

2.1.2 (B) (1) No owner or operator shall receive any regulated substance into any storage tank for which current and proper proof of registration, as provided by Subsection 2.2.1 12.202(A), has not been furnished to the person selling the regulated substance.

(2) No person selling any regulated substance shall deliver, or cause to be delivered, a regulated substance into any storage tank for which he or she has not obtained current and proper proof of registration, as provided by Subsection 2.2.1 12.202(A), from the owner or operator.

2.2 12.202 Certificate of Registration

2.2.1 (A) Proper proof of registration shall be in the form of a Certificate of Registration.

2.2.2 (B) Each year the Department shall issue or renew a Certificate of Registration for each storage tank facility meeting the following requirements:

(1) All storage tanks at the facility must be registered in accordance with this Regulation; and

(2) The registration fees required by Section 2.3 12.203 must be paid.

2.2.3 (C) A Certificate of Registration must be posted in a conspicuous place at each registered facility.

2.3 12.203 Storage Tank Registration Fees

2.3.1 (A) (1) An annual registration fee for each storage tank shall be paid to the Department for each year or portion of a year that the tank is in use.

(2) A storage tank shall be deemed "in use" until it has been removed or otherwise permanently closed in accordance with the procedures mandated by this Regulation and the
Department has been given written notice of the change in status of
the tank.

2.3.2 (B) The annual registration fee for a storage tank newly placed into service shall be paid within thirty (30) days after the tank is placed into service.

2.3.2 (C) The annual registration fee for all storage tanks shall be fifty dollars ($50) per tank.

2.3.4 (D) The annual registration fees shall be allocated to the Regulated Substance Storage Tank Program Funds and the Department of Arkansas State Police Fund in accordance with A.C.A. 48-7-802.

2.3.5 (E) If the annual registration fee required by this Chapter is not paid within thirty (30) days of the billing date of the applicable fee invoice from the Department, a late fee shall be imposed in the amount of five dollars ($5) per storage tank for each month the fee is unpaid; provided, however, that the late fee imposed shall not exceed fifty dollars ($50) per tank.

2.3.6 (F) Nonpayment of any fee required by this Chapter shall constitute grounds for legal action by the Department, and may result in assessment of civil penalties as provided in Chapter Eight.

2.3.7 (G) No fees required by this Chapter shall be refundable.

CHAPTER THREE: PETROLEUM STORAGE TANK TRUST FUND CORRECTIVE ACTION REIMBURSEMENT PROCEDURES

3.1 12.301 Purpose

In accordance with the Petroleum Storage Tank Trust Fund Act, eligible owners or operators may obtain partial reimbursement for costs of corrective action taken in response to accidental releases from qualified petroleum storage tank systems. This Chapter establishes the procedures to be followed and documentation required to receive such reimbursement from the trust fund.

3.2 12.302 Trust Fund Eligibility

3.2.1 (a) (A) (1) Every owner or operator of an underground petroleum storage tank system is required by 40 CFR
280.93 to demonstrate financial responsibility for taking corrective action in response to accidental releases from underground petroleum storage tank systems. One mechanism which may be used to partially satisfy this requirement is the Petroleum Storage Tank Trust Fund.

(b)(2) Every owner or operator choosing to use the trust fund as a mechanism to partially satisfy the financial responsibility requirements described in Subsection 3.2.1.(a) 12.302(A)(1) must also utilize an additional financial responsibility mechanism, as described in Subsection 3.2.4(b) 12.302(D)(2), for the first fifteen thousand seven thousand five hundred dollars ($7,500) ($15,000) of the costs of corrective action.

3.2.2 (B) In accordance with the Petroleum Storage Tank Trust Fund Act, owners or operators of certain aboveground petroleum storage tank systems may also qualify for and access the trust fund.

3.2.3 (C) The trust fund shall not be accessed for storage tank systems storing substances for which payment of the environmental assurance fee established by A.C.A. §8-7-906 is not required.

3.2.4 (D) In order to be eligible for the trust fund, the owner or operator must:

(a)(1) Register each petroleum storage tank and pay the annual storage tank fees required by this Regulation for each tank until such time as the permanent closure requirements of this Regulation are satisfied;

(b)(2) Maintain financial responsibility in the amount of fifteen thousand seven thousand five hundred dollars ($15,000) ($7,500) per occurrence for corrective action costs, by any one or combination of the following: insurance, guaranty, surety bond, letter of credit, insurance pool or any other mechanism allowed by 40 CFR 280; and

(c)(3) For each petroleum storage tank for which trust fund eligibility is sought, certify on forms supplied by the Department that he or she is in substantial compliance with this Regulation and with all state and federal laws and regulations related to petroleum storage tanks, has completed and submitted an annual self-inspection audit form to the Department.

3.2.5 (E) The Department shall issue a Certificate of Eligibility to any owner or operator who meets the requirements of Section 3.2 12.302.

3.3 12.303 Trust Fund Coverage for a Release
(A) In order for an owner or operator to obtain any coverage by the trust fund for corrective action necessary to address an accidental release, all of the following requirements must be met:

(1) At the time of the discovery of the release, the owner or operator must have met each of the requirements for trust fund eligibility as set forth in Subsection 3.2.4 12.302(D);

(2) The release must have occurred after February 22, 1989;

(3) The Department must have been given timely notice of the release as required by Section 3.5 12.305;

(4) At the time of the occurrence, the owner or operator must have been in substantial compliance with this Regulation and all applicable state and federal laws and regulations relating to petroleum storage tank systems a completed current annual self-inspection audit form on file with the Department;

(5) The owner or operator must cooperate fully with the Department in conducting corrective action to address the release; and

(6) The owner or operator must have expended fifteen thousand seven thousand five hundred dollars ($15,000) ($7,500) in reasonable, allowable, and necessary corrective action costs for the occurrence.

(B) Payment for corrective action may be denied if the storage tank owner or operator submits an inaccurate storage tank self-inspection audit form which results in a delay in the corrective action of a release, and the delay contributes to an adverse impact to the environment.

(C) Upon request by the Department, the owner or operator shall submit proof of compliance with the requirements for trust fund coverage.

12.304 Trust Fund Coverage for Unknown Petroleum Storage Tanks

(A) Unknown petroleum storage tanks that have satisfied the requirements of Section 3.3 12.303 shall be eligible for reimbursement for corrective action as provided by this section.
if:

(1) The unknown petroleum storage tank is discovered while removing, upgrading, or replacing a petroleum storage tank meeting the requirements of Section 12.303, or while performing petroleum investigation or corrective action activities required by federal or state laws, and the petroleum storage tank meeting the requirements of Section 12.303 is located on the same property or facility; or

(2) The unknown petroleum storage tank is located on a right-of-way purchased by a city, county, or state governmental agency or entity and is discovered during construction in such right-of-way.

(3) Eligibility for reimbursement of unknown petroleum storage tanks will be conditioned on the payment of three hundred and seventy-five dollars ($375) to the Department.

12.305 Notice Requirements

(A) The Department must be given timely notice of any release as required by 40 CFR 280, Subpart E.

(B)(1) The requirement for giving timely notice of a release from an aboveground storage tank system shall be the same as that for underground storage tank systems.

(2) An owner or operator is required to give notice of a release from an aboveground storage tank system if the amount of the release equals or exceeds existing reporting limits in any other applicable federal or state statutes or regulations.

(C) (1) To ensure timely notice of a release or suspected release from a storage tank system is received by the Department, an owner or operator must follow up a verbal notice to the Department with written notice of the release or suspected release within three (3) business days following the date of the initial verbal notice.

(2) Written notice may be submitted in, but is not limited to, the following forms: facsimile, electronic mail, U. S. mail, hand-written correspondence or by another form as may be provided by the department.

(D) If the Department is not given the required timely notice of a release, and the failure to report the release causes a delay in the corrective action that contributes to an
adverse impact to the environment, no reimbursement shall be made under this Chapter for the costs of corrective action incurred in response to the release.

3.6 12.306 Amount of Reimbursement

3.6.1 (A) The trust fund will provide reimbursement to eligible owners or operators of storage tanks for corrective action costs required to address accidental releases in an amount not to exceed nine hundred eighty-five ninety-two thousand five hundred dollars ($985,000) ($992,500) per occurrence.

3.6.2 (B) The owner or operator shall be responsible for the first fifteen thousand seven hundred five hundred dollars ($15,000) ($7,500) of corrective action costs per occurrence.

3.7 12.307 Deductible

3.7.1 (A) The first fifteen thousand seven thousand five hundred dollars ($15,000) ($7,500) of corrective action costs incurred by the owner or operator shall be considered a deductible and is not eligible for reimbursement from the trust fund.

3.7.2 (B) (1) No reimbursement for corrective action costs shall be made from the trust fund until the deductible for the occurrence has been expended by the owner or operator.

(2) No owner or operator may submit an application for reimbursement for corrective action costs until he or she has expended the deductible.

(3) Proof of payment of the deductible must be provided to the Department prior to approval of reimbursement for any corrective action costs.

(4) For purposes of meeting the deductible, proof of payment shall consist of a receipt, a copy of a money order, or a canceled check. An IOU, a discharge in bankruptcy, a conditional payment, an installment payment, or a down payment shall not be considered proof of payment.

3.7.3 (C) The only corrective action costs which shall be credited toward the deductible are costs which are:

(1) Incurred in response to a release that has been timely reported to the Department; and

(2) Found to be reasonable, allowable, and
necesary.

### 12.308 Applying for Reimbursement of Corrective Action Costs

#### 3.8.1 (A) In order to apply for reimbursement of corrective action costs, an owner or operator must meet the requirements for coverage set forth in Section 3.3 12.303 and meet the requirements of this Chapter for reimbursement applications.

#### 3.8.2 (B) No application shall contain a request for reimbursement, nor shall reimbursement be made, in advance of the reimbursable services being rendered or reimbursable costs being incurred.

#### 3.8.3 (C) Any applications for reimbursement of corrective action costs must be submitted on forms provided by the Department and shall include an accounting of all charges itemized by labor hours and rates, analytical charges, equipment charges and other categories which may be identified by the Department. The application shall also contain the following:

1. (1) The name, address and telephone number of the applicant;

2. (2) The name, address and telephone number of each owner and operator of each storage tank and the facility owner, if different from the applicant;

3. (3) The location of the facility at which the corrective action was performed or is being performed, identified with sufficient clarity and detail to enable a person unfamiliar with the site to locate it;

4. (4) A legible copy of all invoices for which reimbursement is requested, providing a description of the work performed, where the work was performed, the dates the work was performed, the unit costs, and the total amount paid;

5. (5) Evidence that the amounts shown on the invoices for which reimbursement is requested have been paid in full by the applicant. The evidence must be accompanied by a copy of any of the following:

   a. (a) Business receipts, indicating all payments received;

   b. (b) Canceled checks (front and back);
(c) The certification of a certified public accountant that the costs for which reimbursement is requested have been paid in full; or

(d) An affidavit signed by the person who performed the corrective action, affirming that the amounts which the applicant represents as being paid to that person have been paid in full; and

(e) Any other information which the Department may reasonably require.

(D) An application must be signed as follows:

(1) For a corporation:

(a) By a principal executive officer of at least the level of vice-president;

(b) By a duly authorized representative or agent of the executive officer named in Subsection 3.8.4 (a)(1), provided that the representative or agent is responsible for the overall operation of the facility that is the subject of the application; or

(c) By a person whom the board of directors designates by means of a corporate resolution;

(2) For a partnership, sole proprietorship or individual, by a general partner, the proprietor, or individual, respectively; or

(3) For a municipality, state, federal, or other public agency, by either a principal, executive officer, or ranking elected official.

(E) A person who signs an application for reimbursement shall make the following certification:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I also certify that the amounts for which reimbursement is requested under this application have been
paid in full and that I have the authority to submit this application on behalf of ________________.

3.9 12.309 Interim Payments

3.9.1 (A) The Director may provide for interim payments, provided the investigation or corrective action is being conducted in accordance with an approved workplan or corrective action plan. Payment will only be made at the following times:

(a) (1) After the completion of a phase, as approved by the Department; or

(b) (2) At points during the corrective action process agreed to by the Department and the applicant.

3.9.2 (B) The applicant must update his or her application with any information not yet submitted to the Department before review of the reimbursement application will commence.

3.9.3 (C) For purposes of Section 3.9 12.309, the following are the phases of corrective action:

(a) (1) Completion of site stabilization activities;

(b) (2) Completion and submittal of a report for a preliminary investigation;

(c) (3) Implementation of a free product removal system;

(d) (4) Completion and submittal of a report for a secondary investigation and development of a corrective action plan;

(e) (5) Implementation of a corrective action plan; and

(f) (6) Provision of an alternate water supply.

3.9.4 (D) (1) Applications for payments for the implementation of a phase may be submitted ninety (90) days following initiation of work to implement the phase and at ninety (90)-day intervals thereafter until completion of the authorized activities.

(f) (2) Upon request, the Director may approve interim payments at more frequent intervals.
(E) Interim payments may not exceed ninety percent (90%) of reimbursable expenditures to date. The remaining ten percent (10%) shall be released only upon final payment for corrective action concerning the occurrence.

3.10 12.310 Reimbursement Application Review

3.10.1 (a) (A) (1) Before commencing a substantive review of an application for reimbursement of corrective action costs, the Department shall determine whether the release meets the requirements of Section 3.12 12.303 for trust fund coverage for corrective action.

(2) Any person aggrieved by the Department's determination of whether a release is eligible for trust fund coverage for corrective action may request that the Advisory Committee, and, if necessary thereafter, the Director, review the Department's determination.

3.10.2 (B) The Department is not required to commence substantive review of an application until it has received a completed application form containing all of the information required by Section 3.8 12.308. If, during the course of the substantive review, the Department finds that additional information is needed to evaluate the application, the Department may require that the information be provided before review of the application may be completed.

3.10.3 (C) The Department and the Advisory Committee shall not recommend, and the Director shall not approve, reimbursement of corrective action costs unless they are reasonable, allowable, and necessary.

3.10.4 (a) (D) (1) After a reimbursement application is complete, the Department shall make a written recommendation to the Advisory Committee as to whether the applicant has met the trust fund eligibility requirements and, if so, which of the costs specified in the application are reasonable, allowable, and necessary.

(2) The Advisory Committee in its sole discretion may allow supplemental information explaining the application to be presented orally. It may establish a fair and reasonable limit on time allowed for oral presentation.

(3) The Advisory Committee may consider, but is not bound by, the recommendation prepared by the Department pursuant to Subsection 3.10.4(a) 12.310(D)(1). It shall make a written recommendation to the Director as to whether the applicant has met
the trust fund eligibility requirements and, if so, which of the costs for which reimbursement is requested are reasonable, allowable, and necessary and should therefore be paid.

3.10.5 (a) (E) (1) The Director shall consider, but is not bound by, the recommendations made by the Department pursuant to Subsection 3.10.4(a) 12.310(D)(1) and by the Advisory Committee pursuant to Subsection 3.10.4(c) 12.310(D)(3).

(b) (2) The Director shall decide whether the applicant has met the trust fund eligibility requirements and, if so, which of the costs for which reimbursement is requested are reasonable, allowable, and necessary and should therefore be paid.

(c) (3) If the decision of the Director is contrary to the recommendation of the Advisory Committee, the Director shall provide in writing his or her reasons for declining to follow the Advisory Committee's recommendation.

3.10.6 (F) (1) The decision of the Director shall be the final decision of the Department.

(a) The decision of the Director may be appealed to the Commission upon a majority vote by the Commission to hear such an appeal.

(b) Upon a majority vote by the Commission, an appeal of the Director’s decision shall be heard by the Administrative Hearing Officer, who shall issue a recommended decision to the Commission for review and final action.

(2) The decision of the Director may be appealed to the Commission. An owner or operator who considers himself or herself injured in his or her business, person or property by a final decision of the director or his designee, may, within thirty (30) days after the date of the final decision of the director or his designee, appeal the decision to the Commission.

3.11 12.311 Reasonable Costs

3.11.1 (A) "Reasonable costs" means costs or a range of costs commensurate with the level of corrective action necessary to assess or remediate (or both) the petroleum storage tank system release, based on an evaluation of typical costs expected for the particular corrective action under review, with respect to the necessary or required scope and complexity of the action.

3.11.2 (B) Hourly charges for equipment may be
established in the cost proposal submitted for each major phase of work. Hourly rates must be competitive with similar charges by other contractors and may be rejected if they are determined to represent unreasonable costs.

3.11.3 (C) No cost is reasonable unless it is also an allowable cost pursuant to this Chapter.

3.12 12.312 Allowable Costs

3.12.1 (A) Only those costs which are allowable costs pursuant to the terms of this Chapter shall be reimbursable.

3.12.2 (a) (1) (B) (1) (a) Allowable costs are those costs which are approved by the Department and arise directly from the performance of corrective action in accordance with the requirements of this Regulation.

(2) (b) Approval of costs by the Department shall not be construed to be a contract with the State to pay the costs.

(2) (b) The cost of repairing damages caused by the performance of the corrective action shall be allowable unless otherwise prohibited by this Regulation or by other law; provided, however, that the cost of repairing damages resulting from contractor negligence, error, or other wrongful action shall not be allowable.

3.12.3 (C) No reimbursement shall be made under this Chapter for any costs incurred prior to the discovery of a release.

3.12.4 (D) If the Department is not given timely notice of a release as required by Section 3.5 12.305, no reimbursement shall be made under this Chapter for the costs of corrective action incurred in response to the release.

3.12.5 (E) Reimbursement shall be made under this Chapter only for costs incurred for corrective action which is approved by the Department.

3.12.6 (F) The determination as to which costs are allowable will be made on a case-by-case basis. However, costs for the following types of activities or items will generally be considered reimbursable:

(1) Site investigation, testing and monitoring necessary for the preparation of an approved corrective action plan;
(a) Preparation of an approved corrective action plan;
(b) Recovery and disposal of contaminated soils;
(c) Cleanup and disposal of contaminated soils;
(d) Installation and operation of monitoring wells;
(e) Analysis of soils and water;
(f) Removal of leaking storage tanks if required by the Department as necessary to the corrective action;
(g) Provision of an alternate water supply;
(h) Treatment and disposal of contaminated groundwater;
(i) Equipment, such as bailers and sample containers, which can be charged to a specific site; and
(j) Travel costs which are necessary for corrective action and which present the least-cost alternative for the required corrective action.

3.12.7. (6) The following types of costs are those which will not be considered allowable costs of corrective action:
(a) Retrofitting, repairing or replacing petroleum storage tanks systems or piping;
(b) Loss of revenue;
(c) Profit for the responsible party or for any entity in which the responsible party has an ownership interest of five per cent (5%) or more unless payment of such profit is the least-cost alternative for the required corrective action, as determined by the Department’s review of reasonable costs;
(d) Rental of temporary petroleum storage tanks not necessary for corrective action;
(e) Rental of real estate or buildings owned in part or in total by the responsible party or by any entity in which the responsible party has an ownership interest of five per cent (5%) or more unless such rental is the least-cost alternative for the required corrective action, as determined by the
Department;

(b) Rental of real estate or buildings in which the responsible party, or any entity in which the responsible party has an ownership interest of five percent (5%) or more, has a leasehold interest for any reason other than to facilitate the corrective action;

g (6) The value of lost trees, shrubs, grass or signs on the owner's or operator's property, or other fixtures, appurtenances or personal property;

h (7) The value of lost petroleum or petroleum products;

i (8) The cost of sample analysis performed by a laboratory which is not certified by the Department;

j (9) Duplicative charges for travel time and mileage for any trip to multiple job sites where such costs are billed in total to multiple corrective action projects rather than allocated between the separate projects (i.e., only charges based on actual miles traveled for all corrective action projects charged to the trust fund shall be eligible for reimbursement);

k (10) Excess charges for travel time and mileage if visits to multiple sites are not scheduled economically so that the costs can be allocated between the projects, if possible;

l (11) Corrective action taken in violation of state or federal laws or regulations; and

m (12) The costs of equipment purchases; provided, however, that costs of routinely required supplies which are expended at a given site, or equipment which must be installed at a site to implement a corrective action plan, are allowable. Equipment which cannot be charged to a specific site includes, but is not limited to, the following:

(a) Drilling rigs;

(b) Earth-moving equipment;

c (c) Tools of the trade, such as hand tools, safety or traffic control equipment, personal protective equipment, surveying equipment, etc.

d (d) Field analytical and measuring devices, such as groundwater sampling pumps,
photoionization detectors, organic vapor meters, infrared analyzers, portable gas chromatographs, dataloggers, soil gas probes, etc.

3.12.8 (a) (H) (1) No reimbursement shall be made pursuant to this Chapter for any item for which payment is made under a third-party claim for the same occurrence pursuant to Chapter Four.

(b) [2] No third-party claim reimbursement shall be made pursuant to Chapter Four for any item which is included in an approved corrective action plan and is reimbursable under this Chapter.

3.13 12.313 Necessary Costs

Only costs which are necessary, as determined by the Department, for conducting approved corrective action shall be reimbursable under this Chapter.

3.14 12.314 Records

3.14.1 (A) Any owner or operator participating in the trust fund shall maintain the following records and submit them or make them available to the Department upon request:

(a) (1) Evidence of current financial responsibility for fifteen thousand seven thousand five hundred dollars ($15,000) ($7,500) per occurrence; and

(b) (2) Any other records as may reasonably be required by the Department or the Advisory Committee in the performance of their duties under law.

3.14.2 (B) All records necessary to demonstrate that the trust fund eligibility requirements of Section 3.2 12.302 have been fulfilled shall be retained by the owner or operator until one of the following is accomplished:

(a) (1) Closure requirements of this Regulation, if applicable, are satisfied;

(b) (2) Responsibility for meeting the financial assurance requirements of this Regulation is legally transferred; or

(c) (3) The owner or operator is otherwise instructed in writing by the Department.
For auditing purposes, all records necessary to demonstrate that the trust fund coverage requirements of Section 12.303 have been fulfilled shall be retained by the owner or operator for a minimum of three (3) years from the date of closure of the corrective action project.

12.315 Audits

(A) The Director may cause audits to be performed as necessary to ensure that costs, for which reimbursement is sought or has been paid, were in fact incurred and necessary, that the work was in fact performed and necessary, and that reimbursement would be, or is, in fact reasonable and allowable.

(B) The audits may be performed by the Department or by any qualified person at the direction of the Director.

(C) Monies in the trust fund may be expended by the Director as necessary to pay the cost of audits performed by persons other than the Department.

12.316 Cost Recovery

The Department may initiate proceedings against any owner or operator of a petroleum storage tank system for recovery of monies that were solicited and received from the trust fund, regardless of whether it was approved by the Advisory Committee or the Director, if:

(A) The funds were solicited or received through willful or accidental utilization of incorrect information;

(B) The costs were not incurred or were unnecessary;

(C) The work was not performed or was unnecessary;

or

(D) The amount of reimbursement is found to be unreasonable or not allowable.

12.317 Trust Fund Availability

(A) (1) All claims for reimbursement submitted under the provisions of this Chapter are subject to the availability of monies in the trust fund.

(2) Nothing in this Regulation shall be
construed to create a permanent entitlement to monies in the trust fund.

(3) The Commission reserves the right to amend the provisions of this Chapter, including the provisions regarding coverage and eligibility, and reasonable, allowable and necessary costs.

3.17.2 (a) (B) (1) If the monies in the trust fund prove insufficient to cover all trust fund claims for reimbursement, the Advisory Committee shall recommend to the Director a priority system based upon whatever factors it deems appropriate.

(2) The Director may adopt a priority system for reimbursement based upon any factors he or she deems appropriate.

3.18 12.318 Obligation to Comply

3.18.1 (A) Eligibility of an owner or operator for the trust fund shall not preclude the Department's taking any appropriate enforcement action.

3.18.2 (B) Nothing in this Chapter shall affect the liability or responsibility of an owner or operator of a petroleum storage tank system for taking corrective action, as required by this Regulation or any other law, in response to a release.

4  CHAPTER FOUR: PETROLEUM STORAGE TANK TRUST FUND THIRD-PARTY PAYMENT PROCEDURES

4.1 12.401 Purpose

In accordance with the Petroleum Storage Tank Trust Fund Act, eligible owners or operators may obtain partial payment for the costs of compensating third parties for valid bodily injury and property damage claims caused by accidental releases from qualified petroleum storage tank systems. This Chapter establishes the procedures to be followed and documentation required to receive such payment from the trust fund.

4.2 12.402 Trust Fund Eligibility

4.2.1 (a) (A) (1) Every owner or operator of an underground petroleum storage tank system is required by 40 CFR
280.93 to demonstrate financial responsibility for compensating third parties for bodily injury and property damage caused by accidental releases from underground petroleum storage tank systems. One mechanism which may be used to partially satisfy this requirement is the Petroleum Storage Tank Trust Fund.

(2) Every owner or operator choosing to use the trust fund as a mechanism to partially satisfy the financial responsibility requirements described in Subsection 4.2.1.(a) must also utilize an additional financial responsibility mechanism, as described in Subsection 4.2.3(b), for the first fifteen thousand seven thousand five hundred dollars ($15,000) ($7,500) of the costs of third-party claims.

4.2.2 [B] In accordance with the Petroleum Storage Tank Trust Fund Act, owners or operators of certain aboveground petroleum storage tank systems may also qualify for and access the trust fund.

4.2.3 (C) In order to be eligible for the trust fund, the owner or operator must:

(1) Register each petroleum storage tank and pay the annual storage tank fee required by this Regulation for each tank until such time as the permanent closure requirements of this Regulation are satisfied;

(2) Maintain financial responsibility in the amount of fifteen thousand seven thousand five hundred dollars ($15,000) ($7,500) per occurrence for third-party claims, by any one or combination of the following: insurance, guaranty, surety bond, letter of credit, insurance pool or any other mechanism allowed by 40 CFR 280; and

(3) For each petroleum storage tank for which trust fund eligibility is sought, certify, on forms supplied by the Department, that he or she is in substantial compliance, as defined by Subsection 4.3.2 12.403(B).

4.3 12.403 Trust Fund Coverage for a Release

4.3.1 (A) In order for an owner or operator to obtain third-party coverage by the trust fund for a release, the following requirements must be met:

(1) At the time of the discovery of the release the owner or operator must have met each of the requirements for trust fund eligibility as set forth in Subsection 4.2.3 12.402(C);
(2) The release must have occurred after February 22, 1989.

(3) The Department must have been given timely notice of the third-party claim as required by Section 4.5 12.405;

(4) The owner or operator must have expended fifteen thousand seven hundred fifty dollars ($15,000) ($7,500) on reasonable and allowable third-party claims for the occurrence; and

(5) At the time of the release, the owner or operator must have been in substantial compliance, as defined in Subsection 4.3.2 12.403(B).

4.3.2 (a) (B) (1) For purposes of this Chapter only, "substantial compliance" means compliance with the requirement for the owner or operator to maintain financial responsibility in the amount of fifteen thousand seven hundred fifty dollars ($15,000) ($7,500) per occurrence for third-party claims, by any one or combination of the following: insurance, guaranty, surety bond, letter of credit, insurance pool or any other mechanism allowed by 40 CFR 280.

(2) An owner or operator who in fact expends fifteen thousand seven hundred fifty dollars ($15,000) ($7,500) on reasonable and allowable third-party claims for the occurrence shall be deemed to be in substantial compliance.

4.3.3 (C) Upon request by the Department, the owner or operator shall submit proof of compliance with the requirements for trust fund coverage.

4.4 12.404 Trust Fund Coverage for Unknown Petroleum Storage Tanks

4.4.1 (A) Unknown petroleum storage tanks that have satisfied the requirements of Subsection 4.8.3 12.408(C) of this Chapter shall be eligible for reimbursement for third-party claims as provided by this section if:

(1) The unknown petroleum storage tank is discovered while removing, upgrading, or replacing a petroleum storage tank meeting the requirements of Subsection 4.2.3 12.402(C) or while performing petroleum investigation or corrective action activities required by federal or state laws, and the petroleum storage tank meeting the requirements of Subsection 4.2.3 12.402(C) is located on the same property or facility; or
(2) The unknown petroleum storage tank is located on a right-of-way purchased by a city, county, or state governmental agency or entity and is discovered during construction in such right-of-way.

(3) Eligibility for reimbursement of unknown petroleum storage tanks will be conditioned on the payment of three hundred seventy-five dollars ($375) to the Department.

4.5 12.405 Notice Requirements

4.5.1 (a) (A) (1) The owner or operator shall give written notice to the Department of any potential third-party claim within thirty (30) days of his or her knowledge of the potential claim.

(2) The notice required by Subsection 4.5.1(a) 12.405(A) (1) shall provide the names and addresses of all persons and properties alleged to be injured, as well as the time, place, and circumstances of the release.

4.5.2 (a) (B) (1) Any owner or operator against whom a third-party claim is filed in court or in the Arkansas State Claims Commission shall provide a copy of the complaint to the Department no later than twenty (20) days after service of summons or receipt of notification of the claim from the Arkansas State Claims Commission.

(2) Upon receipt of notice pursuant to Subsection 4.5.2(a) 12.405(B) (1), the Department shall immediately notify the Attorney General, who shall have the right to intervene in any such lawsuit or proceeding.

(3) Payment of third-party claims from the fund may be denied for any owner or operator who fails to give the Department notice as required in Subsection 4.5.2 12.405(B).

4.6 12.406 Amount of Payment

4.6.1 (A) The trust fund will provide payment to eligible owners or operators of storage tanks for compensating third parties for bodily injury and property damage caused by accidental releases in an amount not to exceed nine hundred eighty-five ninety-two thousand five hundred dollars ($985,000) ($992,500) per occurrence.

4.6.2 (B) The owner or operator shall be responsible for the first fifteen thousand seven thousand five hundred dollars
($15,000) ($7,500) of third-party bodily injury and property damage claims per occurrence.

4.7 12.407 Deductible

4.7.1 (A) The first fifteen thousand seven thousand five hundred dollars ($15,000) ($7,500) of costs incurred by the owner or operator for third-party bodily injury or property damage claims for an occurrence shall be considered a deductible and is not eligible for reimbursement from the trust fund.

4.7.2 (a) (B) (1) No payment to any owner or operator against whom a third-party claim is brought for bodily injury or property damages shall be made from the trust fund until the owner or operator has expended the deductible amount on third-party claims for the occurrence.

4.7.2 (a) (B) (2) Proof of payment of the deductible must be provided to the Department prior to approval of a third-party claim for payment.

4.7.2 (a) (B) (3) For purposes of meeting the deductible, proof of payment shall consist of a receipt, a copy of a money order, or a canceled check. An IOU, a discharge in bankruptcy, a conditional payment, an installment payment, or a down payment shall not be considered proof of payment.

4.7.3 (C) Only third-party claims found to be reasonable and allowable shall be credited toward the deductible.

4.8 12.408 Applying for Payment of Third-Party Claims

4.8.1 (A) In order to apply for payment of a third-party claim, an owner or operator must meet the requirements for coverage set forth in Section 4.3 12.403 and meet the application requirements of either Subsection 4.8.3 12.408(C) for judgments or Subsection 4.8.5 12.408(E) for settlements.

4.8.2 (B) Unless otherwise stated in writing, any items which are contained in any information submitted to support a third-party claim and which are presented for payment shall be considered satisfied or compensated if the claim is approved and paid. No such items shall be reimbursable as corrective action under Chapter Three, unless otherwise agreed in writing before the third-party claim is approved for payment.

4.8.3 (C) An owner or operator against whom a judgment has been entered, by either a valid final court order or valid final
order of the Arkansas Claims Commission, for bodily injury or property damage caused by an accidental release from a qualified petroleum storage tank system, must submit:

(1) A copy of the order;

(2) Proof that the judgment, or a portion of the judgment, is for bodily injury and property damages, if such is not clearly shown on the face of the order; and

(3) Before payment is made from the trust fund, proof of payment of the deductible of fifteen thousand seven thousand five hundred dollars ($15,000) ($7,500).

4.8.4 (D) (1) An owner or operator must demonstrate cooperation with the Department and, if applicable, the Attorney General’s Office. At a minimum, such cooperation shall include active participation by an owner or operator throughout litigation and providing assistance as required by the Department or the Attorney General’s Office during resolution of a third-party claim.

(2) Reimbursement of a third-party claim may be denied if an owner or operator fails to comply with the requirements of 12.408(D) (1).

4.8.5 (A) (E) (1) An owner or operator who has entered into a settlement agreement with a third-party resolving a claim for bodily injury or property damage caused by an accidental release from a qualified petroleum storage tank system, regardless of whether a lawsuit has been filed, must submit to the Department:

(a) A copy of the legally binding settlement agreement, or of a dismissal with prejudice of the third-party's cause of action in accordance with the Arkansas or federal rules of civil procedure, which releases the owner or operator from all future liability to the third-party claimant for the occurrence;

(b) Documentation supporting each claim for which payment is sought;

(c) A notarized certification from the owner or operator and the third-party claimant that the third-party claim should rightfully be paid; and

(d) Before payment is made from the trust fund, proof of payment of the deductible of fifteen thousand seven thousand five hundred dollars ($15,000) ($7,500).
As an alternative to providing a legally binding settlement agreement pursuant to Subsection 4.8.5(a)(1) 12.408(E) (1) (a), an owner or operator may submit a copy of a proposed settlement agreement and request a preliminary Department review of the agreement before it is made binding. However, the settlement agreement must be made binding, except as provided in Subsection 4.8.5(e) 12.408(E) (3), before it is submitted to the Advisory Committee.

Any otherwise binding settlement agreement submitted under Subsection 4.8.5 12.408(E) may be conditioned upon approval of payment from the trust fund.

12.409 Third-Party Claim Review

(a) (1) Before commencing a substantive review of a third-party claim, the Department shall determine whether the release meets the requirements of Section 4.3 12.403 for third-party coverage by the trust fund.

(b) Any person aggrieved by the Department's determination of whether a release is eligible for third-party coverage by the trust fund may request that the Advisory Committee, and, if necessary thereafter, the Director, review the Department's determination.

(b) The Department is not required to commence substantive review of a third-party claim until any corrective action necessary to address the release has been completed.

(C) The Department is not required to commence substantive review of a third-party claim until it has received all of the information required by Subsection 4.8.5 12.408(C) or Subsection 4.8.5 12.408(E), as applicable. If, during the course of the substantive review, the Department finds that additional information is needed to evaluate the claim, the Department may require that the information be provided before review of the claim may be completed.

(D) The Department and the Advisory Committee shall not recommend, and the Director shall not approve, payment of third-party claims unless they are reasonable and allowable.

(E) The Department and the Advisory Committee shall recommend, and the Director shall approve, payment of a settled claim only upon determining that litigation would result in costs to the trust fund which would exceed the settlement amount.

(F) (1) After its third-party claim eligibility
determination and substantive review is complete, the Department shall make a written recommendation to the Advisory Committee as to whether the applicant has met the trust fund eligibility requirements and, if so, whether the claim, or any portion of it, is both reasonable and allowable.

(2) The Advisory Committee in its sole discretion may allow supplemental information explaining the claim to be presented orally. It may establish a fair and reasonable limit on time allowed for oral presentation.

(3) The Advisory Committee may consider, but is not bound by, the recommendation prepared by the Department pursuant to Subsection 4.9.6(a) 12.409(F) (1). It shall make a written recommendation to the Director as to whether the applicant has met the trust fund eligibility requirements and, if so, whether the claim, or any portion of it, is both reasonable and allowable and should therefore be paid.

4.9.7 (a) (G) (1) The Director shall consider, but is not bound by, the recommendations made by the Department pursuant to Subsection 4.9.6(a) 12.409(F) (1) and by the Advisory Committee pursuant to Subsection 4.9.6(c) 12.409(F) (3).

(2) The Director shall decide whether the applicant has met the trust fund eligibility requirements and, if so, whether the claim, or any portion of it, is both reasonable and allowable and should therefore be paid.

(3) The Director may solicit advice on a claim from the Commission.

(4) If the decision of the Director is contrary to the recommendation of the Advisory Committee, the Director shall provide in writing his or her reasons for declining to follow the Advisory Committee's recommendation.

4.9.8 (H) (1) The decision of the Director shall be the final decision of the Department.

(a) The decision of the Director may be appealed to the Commission upon a majority vote by the Commission to hear such an appeal.

(b) Upon a majority vote by the Commission, an appeal of the Director’s decision shall be heard by the Administrative Hearing Officer, who shall issue a recommended decision to the Commission for review and final action.
The decision of the Director may be appealed to the Commission. An owner or operator who considers himself or herself injured in his or her business, person or property by a final decision of the director or his designee, may, within thirty (30) days after the date of the final decision of the director or his designee, appeal the decision to the Commission.

4.10 12.410 Reasonable Claims

4.10.1 (A) Third-party claims which have been reduced to judgment and for which payment is requested pursuant to Subsection 4.8.3 12.408(C) shall be presumed reasonable under this Chapter.

4.10.2 (B) All settled third-party claims for which payment is requested pursuant to Subsection 4.8.5 12.408(E) must be shown to be reasonable as compared to similar claims for bodily injury or property damage.

4.11 12.411 Allowable Claims

4.11.1 (A) Only claims for bodily injury and property damages, as the terms are defined in 40 CFR 280.92, caused by an accidental release from a qualified storage tank are considered allowable under this Chapter.

4.11.2 (B) No payment shall be made pursuant to this Chapter for any injury or damages caused by the performance of corrective action.

4.11.3 (a) (C) (1) No payment shall be made pursuant to this Chapter for any item for which reimbursement is made for the same occurrence under corrective action pursuant to Chapter Three.

    (b) (2) No payment shall be made pursuant to this Chapter for any item which is included in an approved corrective action plan and is reimbursable under Chapter Three.

4.12 12.412 Records

4.12.1 (A) Any owner or operator participating in the trust fund shall maintain the following records and submit them or make them available to the Department upon request:

    (a) (1) Evidence of current financial responsibility for fifteen thousand seven thousand five hundred dollars ($15,000) ($7,500) per occurrence; and
Any other records as may reasonably be required by the Department or the Advisory Committee in the performance of their duties under law.

(2) All records necessary to demonstrate that the trust fund eligibility requirements of Subsection 4.2 12.402 and the trust fund coverage requirements of Subsection 4.3 12.403 have been fulfilled shall be retained by the owner or operator until one of the following is accomplished:

(a) (1) Closure requirements of this Regulation, if applicable, are satisfied;

(b) (2) Responsibility for meeting the financial assurance requirements of this Regulation is legally transferred;

(c) (3) The owner or operator is otherwise instructed in writing by the Department.

4.13 12.413 Audits

4.13.1 (A) The Director may cause audits to be performed as necessary to ensure that claims, for which payment is sought or has been made, were in fact reasonable and allowable.

4.13.2 (B) The audits may be performed by the Department or by any qualified person at the direction of the Director.

4.13.3 (C) Monies in the trust fund may be expended by the Director as necessary to pay the cost of audits performed by persons other than the Department.

4.14 12.414 Cost Recovery

4.14.1 (A) The Department may initiate proceedings against any owner or operator of a petroleum storage tank system or third-party claimant for recovery of monies that were solicited and received from the trust fund either through willful or accidental utilization of incorrect information.

4.14.2 (a) (B) (1) Any owner or operator of a petroleum storage tank system who was not in substantial compliance at the time of a release, as defined by Subsections 3.2 and 4.2 12.402, for which a third-party claimant was compensated from the trust fund, shall be required to reimburse the trust fund for the amount of the claim paid.

(b) (2) If the owner or operator does not reimburse
the trust fund as required in Subsection 4.14.2(a), the Department may institute an action against the owner or operator to recover such monies pursuant to the authority of A.C.A. §8-7-801 et seq., the Regulated Substance Storage Tank program, the Petroleum Storage Tank Trust Fund Act, or this Regulation.

4.15 12.415 Trust Fund Availability

4.15.1 (a) (1) All claims for payment submitted under the provisions of this Chapter are subject to the availability of monies in the trust fund.

(2) Nothing in this Regulation shall be construed to create a permanent entitlement to monies in the trust fund.

(3) The Commission reserves the right to amend the provisions of this Chapter, including the provisions regarding coverage and eligibility and reasonable and allowable costs.

4.15.2 (a) (1) If the monies in the trust fund prove insufficient to cover all trust fund claims for reimbursement, the Advisory Committee shall recommend to the Director a priority system based upon any factors it deems appropriate.

(2) The Director may adopt a priority system based upon any factors he or she deems appropriate.

4.16 12.416 Obligation to Comply

4.16.1 (a) Eligibility of an owner or operator for the trust fund shall not preclude the Department's taking any appropriate enforcement action.

(2) Nothing in this Chapter shall affect the liability or responsibility of an owner or operator of a petroleum storage tank system for taking corrective action, as required by this Regulation or any other law, in response to a release.

CHAPTER FIVE: LICENSING OF UNDERGROUND STORAGE TANK INSTALLERS AND SERVICE PERSONNEL

5.1 12.501 Purpose

The purpose of this Chapter is to provide for the regulation of
persons installing, repairing, upgrading and closing underground storage tank systems which contain regulated substances in order to assure that the systems are installed, repaired, upgraded and closed in a manner which will not encourage or facilitate leaking and which will protect the public health and the lands and waters of the State of Arkansas.

§ 12.502 Definitions

The following definitions, in addition to the definitions in Chapter One, apply to this Chapter:

(A) "Closing" or "closure" means the process of removing and disposing of or closing in place an underground storage tank system.

(B) "Contractor" means any person who contracts to install, repair, upgrade or close an underground storage tank system for a third party.

(C) "Critical junctures," in the case of an installation, means the steps in the installation of an underground storage tank system which are important to the prevention of releases and shall, at a minimum, include all of the following:

1. Preparation of the excavation immediately prior to receiving backfill and the tank;
2. Setting of the tank and the piping, including placement of any strapping or other anchoring devices and backfilling to the level of the tank;
3. Any time during the installation in which components of the piping are connected;
4. Any time during the installation of corrosion protection measures;
5. All pressure testing of the underground storage tank system, including associated piping, performed during the installation; and
6. Completion Placement of backfill and filling of the excavation.

(D) "Critical junctures," in the case of the repair or upgrade of an underground storage tank system, means the steps in the project which are comparable to the steps listed in Subsection § 12.502(C) in terms of their importance in the prevention of
leaks and shall, at a minimum, include all of the following:

(a) (1) The completion of the excavation of the existing tank or piping;

(b) (2) The actual performance of the repairs or upgrades to the tank or the piping;

(c) (3) Any time during the project in which components of the piping are connected; and

(d) (4) Any time during the project in which the tank system or its associated piping is tested.

5.2.5 (E) "Critical junctures" in the case of a closure means the steps in the removal or in-place closure of an underground storage tank system which are important to the safe removal or closure in place (including the detection of current or previous leakage) and shall, at a minimum, include all of the following:

(e) (1) The purging or inerting of vapors;

(f) (2) The removal and disposal of underground storage tank contents;

(g) (3) The completion of the excavation of the existing underground storage tank system;

(h) (4) The actual performance of the tests or monitoring to determine if previous or current leakage is present;

(i) (5) The actual removal of the existing underground storage tank and piping; and

(j) (6) The assessment of the site to ascertain if a current or previous release has resulted in contamination of the environment.

5.2.6 (F) "Install" or "installation" means the work involved in placing an underground storage tank system or any part thereof in the ground and preparing it to be placed in service.

5.2.7 (G) "Repair" means the correction or modification of an underground storage tank system, including but not limited to the replacement of piping, valves, fill pipes or vents and any repairs to the tank.

5.2.8 (H) "Upgrade" means the addition or retrofit of systems such as cathodic protection, lining, spill and overfill controls or leak detection devices to improve the ability of an
underground storage tank system to prevent the release of product to
the environment.

5.3 12.503 Applicability

5.3.1 (A) This Chapter applies to all persons who
install, repair, upgrade or close underground storage tank systems
in Arkansas, including officers or employees of owners or operators,
except as provided in Subsections 5.3.2 12.503(B) and 5.3.3
12.503(C).

5.3.2 (B) The provisions of this Chapter do not apply to
the installation, repair, upgrade or closure of the following
underground storage tanks:

(a) (1) Wastewater treatment tanks;

(b) (2) Sumps;

(c) (3) Underground storage tanks containing
radioactive waste;

(d) (4) Electrical equipment tanks;

(e) (5) Hydraulic lift tanks; and

(f) (6) Any underground storage tank with a capacity
of one hundred ten (110) gallons or less.

5.3.3 (C) The provisions of this Chapter do not apply to
the installation, repair, upgrade or closure of any underground
storage tank systems holding hazardous wastes that are listed or
identified pursuant to the Resource Conservation and Recovery Act of
1976, as amended, or the Arkansas Hazardous Waste Management Act of
1979, as amended.

5.4 12.504 General Requirements

5.4.1 (a) (A) (1) No person shall install, repair,
upgrade or close underground storage tank systems in Arkansas unless
the person is, or employs, an individual who is licensed by the
Department to perform such work.

(b) (2) No person shall exercise supervisory control
over installations, repairs, upgrades or closures unless that person
is licensed by the Department to perform such work.
(B) No contractor nor individual shall perform or agree to perform any installation, repair, upgrade or closure unless it is or has in its employ one or more licensed individuals who:

(a) (1) Will exercise responsible supervisory control over any installation, repair, upgrade or closure undertaken;

(b) (2) Will, at a minimum, be physically present on site at all critical junctures in the installation, repair, upgrade and closure;

(c) (3) Is competent to perform the installation, repair, upgrade or closure; and

(d) (4) Has adequate knowledge of appropriate materials, technical requirements and installation, repair, upgrade and closure procedures for such work.

(C) (1) No contractor nor individual shall affix his or her signature or license number to certify any installation, repair, upgrade or closure for which he or she lacks competence.

(b) (2) No contractor nor individual shall certify to an owner or operator that an installation, repair, upgrade or closure is complete unless the installation, repair, upgrade or closure complies with this Regulation.

(c) (3) If an installation, repair, upgrade or closure is performed for an owner or operator on a contract basis, both the individual and the contractor for whom the individual works are responsible for the accuracy of any representations made concerning such work.

(D) The requirements of this Chapter are not intended to prohibit the employment of apprentices or helpers so long as a licensed individual exercises responsible supervisory control and is physically present on site at the critical junctures in the installation, repair, upgrade or closure.

(E) The requirements of this Chapter are in addition to, and not in lieu of, any other licensing and registration requirements imposed by other local, state or federal laws or regulations.

(F) The provisions of this Chapter do not relieve the owner or operator of any obligations or liabilities under any other applicable state and federal laws or regulations.
12.505 Bonding Requirement

(A) No person shall install, repair, close, or upgrade any underground storage tank system unless that person or the contractor by whom he or she is employed has purchased, in accordance with A.C.A. §8-7-805, a surety bond in the amount of at least twenty-five thousand dollars ($25,000).

(B) Persons whose installation, repair, closure, or upgrade activities are limited to their own or their employers' companies' underground storage tank systems are exempt from the bonding requirement of Subsection 12.505(A).

(C) In the event the licensee or contracting company fails to properly install, remove, repair, close, or upgrade any underground storage tank pursuant to state law or regulation, the Director shall commence forfeiture proceedings on the surety bond in which the Department is the obligee.

(D) The Department shall notify the licensee or contracting company in writing of the bond forfeiture, and the licensee or contracting company shall be given an opportunity for a hearing as provided herein.

12.506 Notification Requirement

(A) For any installation, or upgrade, the individual or contractor shall notify the Department at least one week prior to the beginning of the second critical juncture as described in Subsections 5.2.3(b) 12.502(C) (2) and 5.2.4(b) 12.502(D) (2).

(B) (1) For any repair, the individual or contractor shall notify the Department at least one week prior to the beginning of the second critical juncture as described in Subsections 5.2.4(b) 12.502(D) (2).

(2) Notwithstanding the provisions of Subsection 12.506(B) (1), if the repair is necessary to prevent or abate a release to the environment, the repair shall be performed immediately and the Department shall be notified within twenty-four (24) hours.

(C) If the date scheduled for installation or upgrade, or repair pursuant to Subsection 5.6.2(a) 12.506(B) (1), changes, the Department must be notified immediately of the change and the revised schedule.
§ 7 12.507 Contractor Licensing

§ 7.1 (A) An applicant for a contractor's license must meet all of the following requirements in order to be licensed by the Department:

(1) The applicant must file an application with the Department on a form furnished by the Department, accompanied by a non-refundable fee of three hundred dollars ($300);

(2) The applicant, if an individual, must be at least eighteen (18) years of age;

(3) The applicant need not, for purposes of this Regulation, be a resident of Arkansas;

(4) The applicant must demonstrate that:

(a) It is in good standing with all licensing authorities by whom licensing is required, given the nature and scope of its business;

(b) It holds a current contractor's license, if required by local, state, or federal laws or regulations; and

(c) It has not had a business or occupational license suspended or revoked in Arkansas or any other state, except as provided in Subsection § 7.2 12.507(B);

(5) At least one active officer, partner, owner, or designated managerial representative of the contractor must pass Part One of the licensing examination described in Section § 7.11 12.511; and

(6) The applicant must attest in the application that on any job involving the installation, repair, upgrade or closure of an underground storage tank system, a licensed individual will exercise responsible supervisory control over the work and will be physically present on the site at all critical junctures in the installation, repair, upgrade or closure.

(7) An application filed with the Department will remain pending for one (1) year from the date of the application. If, during that year, a license is not issued to the applicant, the applicant must file a new application, complete with the appropriate fee, in order to obtain a license from the Department.
5.7.2 (B) Notwithstanding the provisions of Subsection 5.7.1(d)(3) 12.507(A) (4) (c), the Department may grant a license to an applicant who has had a business or occupational license or certificate suspended or revoked if the suspension or revocation, by reason of its date or nature or because of other considerations, is not relevant to the applicant's competence to install, repair, upgrade or close underground storage tanks systems.

5.8 12.508 Individual Licensing

5.8.1 (A) An applicant for an individual license must meet all of the following requirements in order to receive a license from the Department:

(1) The applicant must file an application with the Department on a form furnished by the Department, accompanied by a non-refundable fee of one hundred fifty dollars ($150);

(2) The applicant must be an individual and must be at least eighteen (18) years of age;

(3) The applicant need not, for purposes of this Regulation, be a resident of Arkansas;

(4) The applicant must demonstrate that he or she is in good standing with all licensing authorities by whom licensing is required, given the nature and scope of the applicant's work, and that he or she has not had a business or occupational license or certificate suspended or revoked in Arkansas or any other state, except as provided in Subsection 5.8.2 12.508(B);

(5) The applicant must meet the experience requirements of Subsection 5.10 12.510; and

(6) The applicant must pass the licensing examination required by Section 5.11 12.511.

(7) An application filed with the Department will remain pending for one (1) year from the date of the application. If, during that year, a license is not issued to the applicant, the applicant must file a new application, complete with the appropriate fee, in order to obtain a license from the Department.

5.8.2 (B) Notwithstanding the provisions of Subsection 5.8.1(d) 12.508(A) (4), the Department may grant a license to an applicant who has had a business or occupational license or certificate suspended or revoked if the suspension or revocation, by reason of its date or nature or because of other considerations, is
not relevant to the applicant's competence to install, repair, upgrade or close underground storage tank systems.

5.9 12.509 Contractor/Individual Licensing

A person who is seeking to be both the contractor and the sole licensed individual exercising supervisory control, as required by Subsection 5.7.1(f) 12.507(A) (6), under that contractor's license need only pay the contractor licensing fee required by Subsection 5.7.1(a) 12.507(A) (1). Such person must meet all of the requirements for an individual license set forth in Section 5.8 12.508 except for the fee requirement of Subsection 5.8.1(a) 12.508(A) (1).

5.10 12.510 Experience Requirements

To qualify for an individual license under Section 5.8 12.508, an applicant must demonstrate that he or she has had, within the three (3) years immediately prior to making the application, one (1) year of field experience in installation, repair, upgrade or closure of underground storage tank systems.

5.11 12.511 Licensing Examination

5.11.1 (A) To qualify for an individual license under Section 5.8 12.508, an applicant shall pass a written examination covering all aspects of the installation, repair, upgrade or closure of underground storage tank systems.

5.11.2 (B) At the time an application is filed, the Department will furnish the applicant with a study package to assist him or her in preparing for the examination. The study package will refer applicants to the appropriate laws and regulations and industry publications used by the Department in preparing the examination and upon which the examination will be based.

5.11.3 (C) The examination will consist of three (3) parts, as follows:

(1) Part One will test an applicant's familiarity with the provisions of this Regulation and the applicable Arkansas and federal laws and regulations;

(2) Part Two will test an applicant's familiarity with current technology and industry recommended practices with respect to the proper installation, repair and upgrade of underground storage tank systems;
Part Three will test an applicant's familiarity with current technology and industry recommended practices for proper closure of underground storage tank systems.

5.11.4 (a) (D) (1) In order to be licensed to perform installations, repairs, or upgrades, an applicant must pass Parts One and Two.

(b) (2) In order to be licensed to perform closures, an applicant must pass Parts One and Three.

(c) (3) In order to be licensed to perform installations, repairs, upgrades, and closures, an applicant must pass all parts of the examination.

5.11.5 (a) (E) (1) An applicant must score seventy percent (70%) or higher on each part of the examination taken in order to pass the examination.

(b) (2) An applicant passing any part of the initial examination taken need not be retested on that part, provided that any part taken but not passed must be passed within one year of the initial testing date; otherwise, the entire examination must be retaken.

(c) (3) (a) An applicant who fails the examination may, by paying a non-refundable fee of twenty-five dollars ($25), retake the examination.

(b) (2) This fee must accompany each request for retesting after initial failure of the examination.

(c) (3) (b) For purposes of retesting, an application will remain pending for a period of one (1) year after the applicant's failure to pass the initial examination.

(d) (4) (d) If the applicant has not requested retesting within the one (1)-year period, the applicant must file a new application, complete with the appropriate fee, in order to obtain a license from the Department.

5.11.6 (a) (F) (1) The Department shall offer the examination at least four times each year.

(b) (2) At least thirty (30) days prior to the date of a licensing examination, the Department shall provide notice of the examination to all persons who have requested such notice and to any person who has completed an application for a license since the
5.11.7 (a) (E) (1) The Department shall grade all examinations and notify the applicants of the results within thirty (30) days of the date of the examination.

(2) Examination papers will not be returned to applicants, but may be reviewed by applicants at the Department offices in Little Rock.

§12.512 Renewal of Licenses

5.12.1 (A) Any license issued under Section 5.7 12.507 or Section 5.8 12.508 must be renewed every two (2) years.

5.12.2 (a) (B) (1) At least thirty (30) days before the expiration date of a license, the Department shall mail a renewal application form to the licensee, at the licensee's address of record with the Department.

(2) The licensee shall renew the license on a timely basis regardless of whether an application form has been received from the Department. A form may be requested from the Department if it has not been received by mail.

5.12.3 (C) To qualify for renewal, a licensed contractor must:

(1) Apply for renewal on a form furnished by the Department and accompanied by a non-refundable fee of three hundred dollars ($300); and

(2) Attest in its renewal application that on any job involving the installation, repair, upgrade or closure of an underground storage tank system, a licensed individual will exercise responsible supervisory control over the work and will be physically present on the site at all critical junctures in the installation, repair, upgrade or closure.

5.12.4 (D) To qualify for renewal, a licensed individual must:

(1) Apply for renewal on a form furnished by the Department and accompanied by a non-refundable fee of one hundred fifty dollars ($150);
(2) Demonstrate that he or she has completed at least three (3) installations, repairs, upgrades or closures during the two (2)-year period preceding the renewal application; and

(3) Demonstrate that he or she has completed sixteen (16) hours of Department-approved continuing education in the two (2)-year period preceding the renewal application.

5.12.5 (E) Any license which is not renewed prior to its expiration date shall be considered lapsed and shall not be used in the solicitation or performance of any installation, repair, upgrade or closure.

5.12.6 (a) (F) (1) A license should be renewed prior to its expiration date but may be renewed up to two (2) months after the date of expiration if the following requirements are met:

(a) A late fee of twenty-five dollars ($25) in addition to the renewal fee must be paid; and

(b) The requirements for renewal must be satisfied.

(2) Licenses which have not been renewed within two (2) months after the date of expiration shall be considered lapsed and invalid and applications for renewal will not be accepted after such time.

(3) Any individual or contractor whose license has become lapsed and invalid, as provided in Subsection 5.12.6(b), 5.12.5(F) (2), must submit an application for a new license under Section 5.7 12.507 or Section 5.8 12.508 and comply with the requirements therein.

(4) Any individual applying for a new license under Section 5.8, and who previously held such a license within the past two years which has become lapsed and invalid, must meet the continuing education requirements of 5.12(D) (3) and submit a certificate or certificates as proof of meeting those requirements as part of his or her application.

12.513 Denial of Licenses

5.13.1 (A) No license required by this Chapter shall be issued or renewed if the applicant for issuance or renewal fails to meet any of the applicable licensing requirements.

(B) (1) The Department shall, by certified
mail with return receipt requested, give written notice to the applicant of its decision to deny the issuance or renewal of a license.

(2) The notice of denial shall state:

(a) The specific reasons for the denial;

(b) That in order to appeal the denial, the applicant must submit a written request for a meeting with the Director to review the Department's decision; and

(c) That the request for a meeting with the Director must be received by the Department no later than ten (10) days following the applicant's receipt of the notice of denial.

5.13.3 (a) (C) (1) An applicant shall be afforded an opportunity to appeal to the Director a decision of the Department to deny the license.

(b) In order to appeal the Department's decision to deny the license, an applicant must submit to the Director a written request for a meeting to review the Department's decision.

(b) The request must be received by the Director no later than ten (10) days following the applicant's receipt of the notice described in Subsection 5.13.2 12.513(B).

(c) If no request is received by the Director within the time specified in Subsection 5.13.3(b) (b), 12.513(C) (2) (b), the decision of the Department shall be final and may not be appealed.

(3) The Director, or his or her designee, shall arrange a meeting to discuss the denial of the license within fifteen (15) days of the Director's receipt of the applicant's request pursuant to Subsections 5.13.3(b)(1) 12.513(C) (2) (a) and (2) (b).

5.13.4 (a) (D) (1) Following a meeting held pursuant to Subsection 5.13.3(c) 12.513(C) (3), the Director shall issue a written decision to issue or deny the license in accordance with Section 2.1 of Pollution Control and Ecology Regulation No. 8 (Administrative Procedures).

(b) The decision of the Director shall be final;
however, it may be appealed to the Commission by filing a Request for Commission Review and Adjudicatory Hearing in accordance with Sections 2.1 and 2.5 of Regulation No. 8.

5.13.5 (E) During the pendency of an appeal pursuant to Section 5.13 12.513, the denial of a license shall stand.

5.14 12.514 Department Approval of Training and Continuing Education

5.14.1 (a) (A) (1) The types of training and continuing education required by this Chapter which may be eligible for approval include instructional courses, seminars or conferences sponsored by the Department, the Environmental Protection Agency, educational institutions, independent professional or trade associations, manufacturers, or firms engaged in underground storage tank system installation, repair, upgrade, closure or management.

(b) (2) Course content must be reasonably related to work performed by persons installing, maintaining, repairing, upgrading or closing underground storage tank systems.

5.14.2 (B) Evidence of participation by the individual must be furnished to the Department by the organization sponsoring the approved training or continuing education.

5.15 12.515 Violations

5.15.1 (a) (A) (1) The Department may undertake such investigations as it deems necessary to ensure compliance with the provisions of this Chapter.

(b) (1) (2) (a) The Department may take such actions as it deems necessary to ensure compliance with the provisions of this Chapter, including issuing compliance orders, assessing penalties, and revoking or suspending licenses.

(2) (b) The Department may, in order to effectuate the actions described in Subsection 5.15.1(b) (1) 12.515(A) (2) (a), commence civil or administrative actions under the provisions of A.C.A. 58-7-801 et seq. or Chapter Eight of this Regulation.

5.15.2 (B) The Department may suspend or revoke the license for an individual or contractor upon grounds that the individual or contractor:
(1) Exercised fraud, misrepresentation or deception in obtaining a license;

(2) Exhibited gross incompetence in the performance of an installation, repair, upgrade or closure;

(3) Was derelict in the performance of a duty as a licensed individual or contractor; or

(4) Knowingly violated any provision of this Regulation.

CHAPTER SIX: LICENSING OF UNDERGROUND STORAGE TANK TESTERS

12.601 Purpose

The purpose of this Chapter is to provide for the regulation of persons testing underground storage tank systems which contain regulated substances in order to assure that the systems are tested in a manner which will not encourage or facilitate leaking and which will protect the public health and the lands and waters of the State of Arkansas.

12.602 Definitions

The following definitions, in addition to the definitions in Chapter One, apply to this Chapter:

(A) "Company" means any person who contracts to test an underground storage tank system for a third party.

(B) "Tester" means an individual or company who tests underground storage tank systems in Arkansas; and

(C) "Test" or "testing" means the work involved in assessing the integrity of an underground storage tank system, including associated piping, in order to determine whether or not it is capable of meeting the tightness testing performance standards of 40 CFR 280.43(c) and 280.44(b).

12.603 Applicability

(A) This Chapter applies to all persons who perform testing on underground storage tank systems in Arkansas, including officers or employees of owners or operators, except as provided in...
Subsections 6.3.2 12.603(B) and 6.3.3 12.603(C).

6.3.2 (B) The provisions of this Chapter do not apply to the testing of the following underground storage tanks:

(a) (1) Wastewater treatment tanks;

(b) (2) Sumps;

(c) (3) Underground storage tanks containing radioactive waste;

(d) (4) Electrical equipment tanks;

(e) (5) Hydraulic lift tanks; and

(f) (6) Any underground storage tank with a capacity of one hundred ten (110) gallons or less.

6.3.3 (C) The provisions of this Chapter do not apply to the testing of any underground storage tank system holding hazardous wastes listed or identified under the Resource Conservation and Recovery Act (RCRA) of 1976 as amended, or the Arkansas Hazardous Waste Management Act of 1979, as amended.

6.4 12.604 General Requirements

6.4.1 (a) (A) (1) No person shall test underground storage tank systems in Arkansas unless the person is, or employs, an individual who has been licensed by the Department to perform such testing.

(b) (2) No person shall exercise supervisory control over a test unless that person is licensed by the Department to perform such testing.

6.4.2 (B) No tester shall perform or agree to perform a test unless he or she is licensed as an individual or has in his or her employ one or more licensed individuals who:

(a) (1) will exercise responsible supervisory control over any testing undertaken;

(b) (2) will, at a minimum, be physically present on the site during all preparations for the test and during the actual test itself;

(c) (3) is certified by the test method manufacturer to perform the particular test method utilized; and
has adequate knowledge of appropriate materials, technical requirements and testing procedures for such testing.

6.4.3 (a) (C) (1) No tester shall affix his or her signature or license number to certify any testing for which he or she lacks competence.

(b) (2) No tester shall certify to an owner or operator that a test is complete unless the test complies with this Regulation.

(c) (3) If a test is performed for an owner or operator on a contract basis, both the individual and the company for whom the individual works are responsible for the accuracy of any representations made concerning such test.

6.4.4 (D) The requirements of this Chapter are not intended to prohibit the employment of apprentices or helpers so long as a licensed individual exercises responsible supervisory control and is physically present on site during all preparations for the test and during the actual test itself.

6.4.5 (E) The requirements of this Chapter are in addition to, and not in lieu of, any other licensing and registration requirements imposed by local, state, or federal laws or regulations.

6.4.6 (F) The provisions of this Chapter do not relieve the owner or operator of any obligations or liabilities under any other applicable state and federal laws or regulations.

12.605 Bonding Requirement

(A) No person shall test any underground storage tank system unless that person or the contractor by whom he or she is employed has purchased, in accordance with A.C.A. §8-7-805, a surety bond in the amount of at least twenty-five thousand dollars ($25,000).

(B) Persons whose testing activities are limited to their own or their employers' companies' underground storage tank systems are exempt from the bonding requirement of Subsection 6.5.1 12.605(A).

(C) In the event the licensee or contracting company fails to properly test any underground storage tank pursuant to state law or regulation, the Director shall commence forfeiture proceedings on the surety bond in which the Department is the
obligee.

(D) The Department shall notify the licensee or contracting company in writing of the bond forfeiture, and the licensee or contracting company shall be given an opportunity for a hearing as provided herein.

12.606 Company Licensing

(A) An applicant for a company license must meet all of the following requirements in order to be licensed by the Department:

1. (1) The applicant must file an application with the Department on a form furnished by the Department, accompanied by a non-refundable fee of three hundred dollars ($300);

2. (2) The applicant, if an individual, must be at least eighteen (18) years of age;

3. (3) The applicant need not, for purposes of this Regulation, be a resident of Arkansas;

4. (4) The applicant must demonstrate that:

   (1) (a) It is in good standing with all licensing authorities by whom licensing is required, given the nature and scope of its business;

   (2) (b) It holds a current contractor's license, if required by local, state, or federal laws or regulations; and

   (3) (c) It has not had a business or occupational license suspended or revoked in Arkansas or any other state, except as provided in Subsection 6.6.2 12.606(B);

5. (5) At least one active officer, partner, owner, or designated managerial representative of the company must pass Part One of the licensing examination described in Section 5.11 12.511; and

6. (6) The applicant must attest in the application that on any job involving the testing of an underground storage tank system, a licensed individual will exercise responsible supervisory control over the work and will be physically present on the site during all preparations for the test and during the actual test itself.
An application filed with the Department will remain pending for one (1) year from the date of the application. If, during that year, a license is not issued to the applicant, the applicant must file a new application, complete with the appropriate fee, in order to obtain a license from the Department.

Notwithstanding the provisions of Subsection 6.6.1(d)(3) 12.606(A) (4) (c), the Department may grant a license to an applicant who has had a business or occupational license or certificate suspended or revoked if the suspension or revocation, by reason of its date or nature or because of other considerations, is not relevant to the applicant's competence to test underground storage tank systems.

**Individual Licensing**

An applicant for an individual license must meet all of the following requirements in order to receive a license from the Department:

1. The applicant must file an application with the Department on a form furnished by the Department, accompanied by a non-refundable fee of one hundred fifty dollars ($150);

2. The applicant must be an individual and must be at least eighteen (18) years of age;

3. The applicant need not, for the purposes of this Regulation, be a resident of Arkansas;

4. The applicant must demonstrate that he or she is in good standing with all licensing authorities by whom licensing is required, given the nature and scope of the applicant's work, and that he or she has not had a business or occupational license or certificate suspended or revoked in Arkansas or any other state, except as provided in Subsection 6.7.2 12.607(B);

5. The applicant must meet the experience requirements of Subsection 6.7.2 12.609;

6. The applicant must provide the Department with certification by the manufacturer of the testing method to be used by the applicant that the method will meet the federal performance standard as stated in 40 CFR 280.43(c) and 280.44(b);

7. At the time application for the license is made, the applicant must provide the Department with certification
from the manufacturer of the test method to be used by the applicant that the applicant has received training, been examined, and satisfactorily shown proficiency in the use of the chosen testing method; and

(8) The applicant must pass Part One of the licensing examination described in Section 12.511.

(9) An application filed with the Department will remain pending for one year (1) from the date of the application. If, during that year, a license is not issued to the applicant, the applicant must file a new application, complete with the appropriate fee, in order to obtain a license from the Department.

6.7.2 Notwithstanding the provisions of Subsection 6.7.1(d) 12.607(A) (4), the Department may grant a license to an applicant who has had a business or occupational license or certificate suspended or revoked if the suspension or revocation, by reason of its date or nature or because of other considerations, is not relevant to the applicant's competence to test underground storage tank systems.

6.7.3 (a) (C) (1) If an individual chooses a test method that is different from that for which he or she is licensed, the individual must provide proof to the Department that he or she has met the requirements of Subsections 6.7.1(f) 12.607(A) (6) and 6.7.1(g) 12.607(A) (7) for the chosen method. Upon receipt of adequate documentation, the Department shall update its file on that license to reflect the change in method.

(b) (2) The requirements of Subsection 6.7.3(a) 12.607(C) (1) must be met before the individual performs any testing as a licensed tester using a method different from that for which the existing license was issued.

(c) (3) If the change in test method is made before the expiration of the existing license, no additional fee is required to update that license.

12.608 Company/Individual Licensing

A person who is seeking to be both the company and the sole licensed individual exercising supervisory control, as required by Subsection 6.6.1(f) 12.606(A) (6), under that company's license need only pay the company licensing fee required by Subsection 6.6.1(a) 12.606(A) (1). Such person must meet all of the requirements for an individual license set forth in Section 6.7 12.607 except for the fee requirement of Subsection 6.7.1(a) 12.607(A) (1).
Experience Requirements

To qualify for an individual license under Section 6.7 12.607, an applicant must demonstrate that he or she has had, within the three (3) years immediately prior to making the application, one (1) year of field experience in testing.

Renewal of Licenses

6.10.1 (A) Any license issued under Section 6.6 12.606 or Section 6.7 12.607 must be renewed every two (2) years.

6.10.2 (B) (1) At least thirty (30) days before the expiration date of a license, the Department shall mail a renewal application form to the licensee, at the licensee's address of record with the Department.

(2) The licensee shall renew the license on a timely basis regardless of whether an application form has been received from the Department. A form may be requested from the Department if it has not been received by mail.

6.10.3 (C) To qualify for renewal, a licensed company must:

(1) Apply for renewal on a form furnished by the Department and accompanied by a non-refundable fee of three hundred dollars ($300); and

(2) Attest in its renewal application that on any job involving the testing of an underground storage tank system, a licensed individual will exercise responsible supervisory control over the work and will be physically present on the site during all preparations for the test and during the actual test itself.

6.10.4 (D) To qualify for renewal, a licensed individual must:

(1) Apply for renewal on a form furnished by the Department accompanied by a non-refundable fee of one hundred fifty dollars ($150);

(2) Demonstrate that he or she has completed at least (3) three tests during the two (2)-year period preceding the renewal application; and

(3) Demonstrate that he or she has completed continuing education in the test method chosen for use by that individual and received recertification by the manufacturer of such
test method.

6.10.5 (E) Any license which is not renewed prior to its expiration date shall be considered lapsed and shall not be used in the solicitation or performance of any test.

6.10.6 (a) (F) (1) A license should be renewed prior to its expiration but may be renewed up to two (2) months after the date of expiration if the following requirements are met:

(1) (a) A late fee of twenty-five dollars ($25) in addition to the renewal fee must be paid; and

(2) (b) The requirements for renewal must be satisfied.

(b) (2) Licenses which have not been renewed within two (2) months after the date of expiration shall be considered lapsed and invalid and applications for renewal will not be accepted after such time.

(c) (3) Any individual or company whose license has lapsed as provided in Subsection 6.10.6(b) must submit an application for a new license under Section 6.6 or 6.7 and comply with the requirements therein.

6.11 12.611 Denial of Licenses

6.11.1 (A) No license required by this Chapter shall be issued or renewed if the applicant for issuance or renewal fails to meet any of the applicable licensing requirements.

6.11.2 (a) (B) (1) The Department shall, by certified mail with return receipt requested, give written notice to the applicant of its decision to deny the issuance or renewal of a license.

(2) The notice of denial shall state:

(a) The specific reasons for the denial;

(b) That in order to appeal the denial, the applicant must submit a written request for a meeting with the Director to review the Department's decision; and

(c) That the request for a meeting with the Director must be received by the Department no later
than ten (10) days following the applicant's receipt of
the notice of denial.

6.11.3(a) (C) (1) An applicant shall be afforded an
opportunity to appeal to the Director a decision of the Department
to deny the license.

(b) (1) (2) (a) In order to appeal the
Department's decision to deny the license, an applicant
must submit to the Director a written request for a
meeting to review the Department's decision.

(b) (2) The request must be received by the
Director no later than ten (10) days following the
applicant's receipt of the notice described in Subsection
6.11.2 12.611(B).

(c) If no request is received by the
Director within the time specified in Subsection
6.11.3(b) (2) 12.611(C) (2) (b), the decision of the
Department shall be final and may not be appealed.

(c) (3) The Director, or his or her designee, shall
arrange a meeting to discuss the denial of the license within
fifteen (15) days of the Director's receipt of the applicant's
request pursuant to Subsections 6.11.3(b)(1) 12.611(C) (2) (a)
and (2) (b).

6.11.4 (a) (D) (1) Following a meeting held pursuant to
Subsection 6.11.3(c) 12.611(C) (3), the Director shall issue a
written decision to issue or deny the license in accordance with
Section 2.1 of Pollution Control and Ecology Regulation No. 8
(Administrative Procedures).

(b) (2) The decision of the Director shall be final;
however, it may be appealed to the Commission by filing a Request
for Commission Review and Adjudicatory Hearing in accordance with
Sections 2.1 and 2.5 of Regulation No. 8.

6.11.5 (E) During the pendency of an appeal pursuant to
Section 6.11 12.611, the denial of a license shall stand.

6.12 12.612 Department Approval of Training and Continuing
Education

6.12.1 (a) (A) (1) The types of training and continuing
education required by this Chapter which may be eligible for
approval include instructional courses, seminars or conferences
sponsored by the Department, the Environmental Protection Agency,
educational institutions, independent professional or trade associations, manufacturers, or firms engaged in underground storage tank system testing.

(2) Course content must be reasonably related to work performed by persons testing underground storage tank systems.

6.12.2 (B) Evidence of participation by the individual must be furnished to the Department by the organization sponsoring the approved training or continuing education.

6.13 12.613 Violations

6.13.1 (a) (A) (1) The Department may undertake such investigations as it deems necessary to ensure compliance with the provisions of this Chapter.

(2) (a) The Department may take such actions as it deems necessary to ensure compliance with the provisions of this Chapter, including issuing compliance orders, assessing penalties, and revoking or suspending licenses.

(b) [b] The Department may, in order to effectuate the actions described in Subsection 6.13.1(b)(1) 12.613(A), commence civil or administrative actions under the provisions of A.C.A. § 7-801 et seq. of Arkansas law or Chapter Eight of this Regulation.

6.13.2 (B) The Department may suspend or revoke the license for an individual or contractor upon grounds that the individual or contractor:

(a) (1) Exercised fraud, misrepresentation or deception in obtaining a license;

(b) (2) Exhibited gross incompetence in the performance of a test;

(c) (3) Was derelict in the performance of a duty as a licensed individual or company; or

(d) (4) Knowingly violated any provision of this Regulation.
Requests for Confidentiality

12.701 Any information submitted to the Department may be claimed as confidential.

12.702 Submission Procedures

12.701 Any person claiming information as confidential under the provisions of Section 12.701 shall:

12.702 Any information submitted to the Department for which a claim of confidentiality is made shall be submitted in a sealed envelope marked "CONFIDENTIAL" and addressed to the Director.

The information shall be submitted in two separate parts as follows:

The first part shall contain all information which is not deemed by the submitter to be confidential and shall include appropriate cross references to the second part; and
The second part shall contain data, words, phrases, paragraphs or pages and appropriate affidavits containing or relating to the information which is claimed to be confidential.

12.703 Prerequisites for Protection

(A) No information shall be protected as confidential unless:

1. It is submitted in accordance with the provisions of this Chapter; and
2. The Director finds that the information would constitute a trade secret under A.C.A. §4-75-601 et seq. Arkansas law.

(B) If the Director determines that information which is properly submitted does constitute a trade secret, then the information shall be kept confidential in accordance with Section 7-§ 12.705.

12.704 Acceptability of Information

(A) The Director shall give written notice to any person submitting information for which confidentiality is claimed of his or her decision on whether the information has been accepted as confidential.

(B) All information which the Director determines is entitled to protection shall be marked with the term "ACCEPTED" and shall be protected in accordance with Section 7-§ 12.705.

(C) (1) If the Director finds that the information submitted does not meet the requirements of Section 7-3 12.703, he or she shall promptly notify the person submitting the information of this finding. The Director shall give the person reasonable opportunity to further justify his or her claim that the information deserves protection as a trade secret or to limit the scope of information for which the request for protection is made.

(2) If the person fails to satisfactorily demonstrate to the Director that the information submitted meets the criteria of Section 7-3 12.703, the information shall be marked with the term "REJECTED" and promptly returned to the person submitting the information.
Security

7.5 12.705 Security

7.5.1 (a) (1) All information which is accepted by the Director as confidential shall be stored in locked filing cabinets.

(2) (2) No person shall have access to confidential information unless the person requires such access in order to carry out his or her responsibilities under A.C.A § 8-7-801 et seq. the Regulated Substance Storage Tank program, the Petroleum Storage Tank Trust Fund Act, or this Regulation.

7.5.2 (B) No person shall disclose any confidential information except in accordance with the provisions of A.C.A. § 8-7-811. applicable state law.

CHAPTER EIGHT: ENFORCEMENT AND ADMINISTRATIVE PROCEDURES

8.1 12.801 Enforcement

[A] (A) Violation of any provision of this Regulation, or of any order issued by the Department pursuant thereto, shall be considered a violation of this Regulation and shall be subject to the penalty provisions of A.C.A. § 8-7-806. the Regulated Substance Storage Tank program.

[B] (B) The provisions of Regulation No. 7 (Civil Penalties) shall apply to enforcement actions taken pursuant to this Regulation.

8.2 12.802 Administrative Procedures

The provisions of Regulation No. 8 (Administrative Procedures) shall apply to administrative licensing or enforcement actions taken pursuant to this Regulation. Additionally, all administrative hearings and appeals arising under this regulation shall be conducted in accordance with the procedures described in A.C.A. § 8-7-804 and Regulation No. 8.

CHAPTER NINE: SEVERABILITY

If any provision of this Regulation or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of this Regulation which can be given effect without the invalid provision or application, and, to this end, provisions of this Regulation are declared to be
CHAPTER TEN: EFFECTIVE DATE

This Regulation shall be in full force and effect as of the date of its promulgation.

[NOTE: Full promulgation occurs ten (10) days after the Regulation is filed with the Secretary of State. The effective date of this regulation is July 17, 1999.]

severable.
