NetDMR Move to Central Data Exchange (CDX)
(For Edit, View, and Data Provider Roles Only)

NetDMR Users Move to Central Data Exchange (CDX)

Reasons

• Streamline Accounts for Permittees and Data Providers

• Store Copy of Records at CDX; access to CORs still available from NetDMR

• One CDX Account will allow you to have access to various electronic reporting programs, such as:
  ▪ NeT, NetDMR, and other EPA Program Services
CDX vs NetDMR

Central Data Exchange (CDX)

- Agency User account creation and management tool used for access several different EPA systems with a single login
- Uses "Signature Agreement" to authenticate and authorize users who 'certify' data
- Signature Agreement need only be submitted/approved once per CDX account

Network Discharge Monitoring Report (NetDMR)

- Agency's system for the electronic reporting and management of DMR data
- Uses a "Subscriber Agreement" to authenticate and authorize users who Sign and Submit DMRs at a permit level
- User must sign a Subscriber Agreement for each NPDES ID they are requesting Signatory Role for
Migration Schedule

- **May 12, 2017 – May 19, 2017** – No new NetDMR accounts; no longer able to edit User Account or Reset Password in NetDMR; NetDMR will still be operational for entering/submitting DMR data.

- **May 19-21, 2017** – Implementation (NetDMR will be down all weekend).

- **May 22, 2017** – New NetDMR online; users will begin receiving CRK emails.
  - Existing NetDMR users will receive a Customer Retrieval Key (CRK) email from CDX Helpdesk – netdmr.notification@epa.gov.
  - A separate CRK email will be sent per Instance. Users registered in multiple Instances will receive multiple CRK emails.
  - Users with User Account discrepancies as of May 12 will NOT receive a CRK email.
  - New users (and users not receiving a CRK email) can start registering for a new NetDMR account beginning May 22, 2017.
Who will get moved?

- **ONLY** those NetDMR user who receive a CRK email will be moved

**Who will receive a CRK email?**
- Registered NetDMR users as of May 12, 2017
  - Permittees & Data Providers must “Finalize” their account. Not necessary to be Approved by RA
  - Registered users with no User Account Discrepancies
    - NetDMR User ID matches CDX User ID (if CDX account exists)
    - NetDMR Email matches CDX Email (if CDX account exists)

**Who will NOT receive a CRK email?**
- New NetDMR users not registered in NetDMR prior to May 12, 2017
- Permittees & Data Providers who have not “Finalized” their account creation
- Any user with a User Account Discrepancy
What does it mean to **NOT** get moved?

- New users to NetDMR (those not registered by May 12), users who do not get a CRK email, or users who fail the move process will not get moved.
- Beginning May 22, 2017, non-moved users can begin creating a New Account in NetDMR:
  - All new users will need to Request Access (for Role) and be Approved in NetDMR.
- **For Signatories Only** –
  - Will be required to authenticate via LexisNexis in CDX (one time event):
    - LexisNexis is a third party tool used for identity proofing.
  - Will be required to submit a Subscriber Agreement for each requested NPDES Permit ID.
Current NetDMR User Types will move to the Following CDX User Types

Sample Email

- Email will come from “netdmr-notification@epa.gov”
- For users expecting multiple CRK emails, some email programs may display similar emails into a single conversation chain. This would give the appearance that only a single email was received, but when opened, will reveal all of the other emails.
